

Master Welder

Herschel Boyett

Professional summary

Highly skilled and experienced master welder with over 20 of expertise in a wide range of welding techniques and applications. Proven track record of excellence in structural welding, fabrication, and metalworking. Strong leadership abilities with a commitment to quality craftsmanship, safety, and efficiency.

Experience

Master Welder

2017 - Now

Bluegrass Welding Solutions / Allen, KY

- Lead a team of welders in executing welding projects, including structural steel fabrication, pipe welding, and metalworking for commercial and industrial clients.
- Interpret blueprints, drawings, and welding symbols to determine welding specifications and requirements.
- Demonstrate proficiency in a wide range of welding techniques, including TIG, MIG, flux-cored arc welding (FCAW), and submerged arc welding (SAW).
- Provide training and mentorship to junior welders, emphasizing safety procedures, best practices, and skill development.

Senior Welder

2007 - 2017

Allen Fabrication Co. / Allen, KY

- Executed welding tasks on various projects, including structural steel fabrication, pressure vessel welding, and metal repair.
- Utilized advanced welding techniques, including TIG, MIG, stick welding, and oxy-fuel cutting, to achieve precise and durable welds.
- Collaborated closely with engineering teams to develop welding procedures and specifications for complex projects.
- Conducted welder qualification tests (WQT) and welding procedure qualification tests (WPQT) to ensure compliance with industry standards.

Structural Welder

2004 - 2007

Kentucky Welding Co / Frankfort, KY

- Executed welding tasks under the supervision of senior welders, gaining hands-on experience in various welding techniques.
- Assisted in the setup and preparation of welding equipment and materials for welding projects.
- Participated in team meetings and training sessions to enhance welding skills and knowledge.
